PROJECTS

Urban Foods

Technology :- HTML, CSS, Bootstrap

- Developed a dynamic and responsive food website that allows users to order food items online.
- Interactive food listings with images, nutritional information and prices.
- The platform emphasizes user-friendly navigation, high-quality food imagery, and strong branding to reflect contemporary urban cuisine.

WanderWise

Technology :- HTML, CSS, JavaScript

- Engaging adventure-themed website to showcase outdoor travel destinations, activities, and guided tour packages.
- The website provides users with detailed information about adventures, booking options, and travel tips through a clean, responsive user interface.
- The platform features interactive maps, booking integrations, and responsive design to enhance user experience across devices.

Portfolio Website

Technology :- HTML, CSS, Bootstrap, Javascript, React Js

- Designed and developed a responsive personal portfolio website to showcase my projects, skills, resume, and contact information.
- This portfolio website serves as a visual representation of my web development skills and projects.
- It showcases my ability to design and build user-friendly and efficient websites.
